

REVOLT ON EVE OF COLLAPSE

Aguinaldo Conferring For Peace Overtures:

AN ABSOLUTE SURRENDER OF REBELS EXPECTED SOON.

Feeling of Hopelessness Spreading Throughout Insurgent Army.—On the other hand, Mabini and Luna are seeking to prolong hostilities. Common people, however, are in favor of peace.—Captured Spanish Captain Says the Enemy's Army is Practically Disbanded.

New York, April 27.—[Special]—The Evening Journal's Manila dispatches say the revolt of the Filipinos against the authority of the United States, appears to be on the eve of collapse.

Aguinaldo, according to the report of the Filipino commission in Manila, is now conferring with the cabinet concerning peace overtures.

The next advance of American troops will bring about an absolute surrender of the rebel forces.

A feeling of hopelessness is spreading throughout the insurgent army. On the other hand, Mabini and Luna are seeking in every way to prolong the hostilities. They insist that resistance shall continue and attempt to cheer their men with highly colored tales of American disaster. The common people, however, are strongly in favor of peace.

An escaped Spanish captain says the rebel army is practically disbanded and that the Filipino republic is a thing of the past.

Will Arrange to End War.

Washington, April 27.—[Special]—Agoncillo, the Filipino agent, who is now in Paris, may return to the United States in the near future. A friend here received a message from him, in which he says he expects to come to the United States soon and will see the authorities and endeavor to make arrangements to stop the war.

Routed by MacArthur's Troops.

Manila, April 27.—[Special]—The main body of the Filipino army under Luna was routed by MacArthur's troops this morning.

The Kansas and Montana regiments pursued the fleeing enemy, driving them to a position beyond Apalit four miles west of the Rio Grande river. The enemy's loss was heavy. Our loss was one killed, six wounded, including three officers.

Fear of Assassination

Washington, April 27.—[Special]—Private advices from Manila say that extraordinary precautions are being taken to protect Gen. Otis from assassination by the Filipinos. He is constantly surrounded by a special guard of fifty men.

Manila, April 27.—There was hard fighting Thursday on each side of the railroad line, the rebel forces for the first time using two shrapnel guns, from which they poured a heavy but ineffective fire on the American forces from the north bank of the Rio Grande.

Gen. Hale, with the Fifty-first Iowa and the Kansas regiment, held the positions on the east of Calumpit which they gained Tuesday. Wheaton's brigade, on the west of the railroad, advanced west of Calumpit toward the Rio Grande, on the north side of which are strong intrenchments of the insurgent forces, guarding the railroad bridge spanning the stream. There was heavy firing on each side. One man in the Kansas regiment was killed. The Montana regiment lost one killed and eight wounded.

Planned Coup by Funston Falls.

Manila, April 27.—Col. Funston, with the Kansas regiment, attempted to surprise the insurgents across the Rio Grande last night, but the movement was discovered by the rebels and the contemplated attack was abandoned.

Memorable March by Lawton.

Manila, April 27.—A carrier pigeon brought an account of the advance of Maj.-Gen. Lawton, whose line of communication had been cut off. The same bird also brought a message from Gen. Lawton to Gen. Otis.

The story brought by the carrier pigeon says that two columns—the first under Gen. Lawton and the second under Col. Summers—met at Norzagaray, in the hills fifteen miles east of Calumpit.

Gen. Lawton had marched twenty-eight miles under almost unsurmountable difficulties. This advance is one of the most notable feats of the entire campaign against the insurgents.

Norzagaray and Angat Taken.

The road over which the expedition advanced is a mere trail across rough hills. The entire force had to turn in and help the wagon train, as the use of the water buffaloes proved an inefficient method of transportation, ten of the animals dying of exhaustion. The enemy offered little resistance.

Col. Summers, with his force, had reached Norzagaray Sunday morning, taking the town after a little fighting. The enemy retreated to the hills. On Tuesday, the American forces took

and burned the village of Angat, the total loss being five wounded. Insurgents continue to fire on Norzagaray from the hills, but do not seem inclined to make a determined stand, pursuing instead guerrilla tactics.

MAY CALL FOR VOLUNTEERS.

Question Depends Largely on the Success of Lawton's Campaign.

Washington, April 27.—On the result of the present campaign in the island of Luzon, which has as its objective point the defeat of any attempt on the part of the insurgents to escape into the mountains north of Calumpit and San Fernando, will depend the settlement of the question of the advisability of calling for the 35,000 volunteers authorized by the army reorganization act. This statement was made by a high official of the government.

If Lawton's column should succeed in getting between the insurgents and the mountainous country, there will be every reason to expect that the forces of Aguinaldo will be crushed. If this movement should fail, the administration will proceed immediately to give serious consideration to taking advantage of the authority conveyed in the act. Much will depend, in that event, on the views of Maj.-Gen. Otis. The matter has already been discussed by the president and his advisers, but official opinion is opposed to organizing the volunteer army unless it is absolutely necessary to do so.

Late Report from Gen. Otis.

Washington, April 27.—The following cablegram was received at the war department late last evening:

"Manila, April 26.—Adjutant-General, Washington: Lawton at Norzagaray and Angat; his two columns united; have driven enemy to north and west. Slight casualties; names not reported. Only means communication cut off.

"MacArthur has taken portion of Calumpit south of river. Movement attended with difficulties on account of jungle, heat and strong intrenchments. His casualties yesterday, three killed, eleven wounded.

"Developments thus far satisfactory."

"OTIS."

PASS BILL CERTAIN TO BECOME A LAW

HALL'S PET MEASURE ONLY LACK GOV.'S SIGNATURE.

Makes Fine \$200 to \$1,000 and Punishment One to Five Years—Orton Bill Increasing Railroad Taxation Special Order For This Evening—Adjournment Next Wednesday.

Madison, Wis., April 27.—After many weeks of parliamentary fighting and useless argument, the anti-pass bill is now certain to become a law, having passed both houses this morning. The bill leaves the penalty the same as prescribed in the constitutional amendment, and includes legislators in the liability clause, by making the receiving or use of passes a felony. The clause allowing the railroad commissioner and deputies to ride free, was cut out. The bill makes the fine \$200 to \$1,000, and the punishment one to five years in prison.

Orton bill increasing the taxes of railroad companies was up in the senate with a report for non-concurrence. Denett offered an amendment, which increased the taxes of the larger roads, but left the smaller roads about the same and the bill was made a special order for this evening.

Twenty or more bills on minor subjects were killed with one roll call in the senate.

The assembly reconsidered the vote by which the bill providing for traveling-expenses of state officials was killed and it was advanced to a third reading.

The Hoeble bill for taxing of vessel property on the same basis as other property, passed both houses and is ready for the governor's signature.

The assembly took a recess, until 3 o'clock.

The afternoon sessions will be held the rest of the week and adjournment may be taken next Wednesday.

Madison, Wis., April 27.—It is understood that Gov. Scofield will submit the True marriage license law to the attorney-general for an opinion on its constitutionality, and if this is favorable he will sign it.

In the senate there was another struggle over the anti-pass bill, which had been returned from the assembly, concurrence in the senate amendments having been refused. A conference committee was appointed.

The senate advanced to a third reading the bill imposing an income tax on newspapers. The bill has not been taken seriously by any of the members and its advancement is considered a joke.

The bill increasing the annual appropriation for the construction of the new historical library building from \$60,000 to \$100,000, for five years, went to third reading in the assembly, having already passed the senate.

ANTICS OF TELEPHONE WIRE

Many Instruments Destroyed—Farmer and Family Narrowly Escape.

Some smoke, the smell of burning rubber, and the ringing of telephone bells created quite a stir in about twenty residences yesterday afternoon about 4:15 o'clock. The appearance of the fire patrol wagon about that time dashing up Milwaukee street, called out hundreds of people from the business district, who watched it until it turned at the top of the hill.

On the crest of Milwaukee street hill a part of the Wisconsin Telephone construction crew were engaged in changing a cross arm, holding many wires, from an old pole to a new one near by. "Judge" Bradshaw, who was on the old pole at the time, had just released the return copper wire preparing to follow it with the cross arm when the "copper" suddenly broke near him and whipped over the trolley wire, the end trailing in the dust. It instantly became a live wire, communicating the 250 volts of the trolley to the many telephone wires over which part of it lay. Instantly every instrument on these lines were burned out and at the cable station in front of the central office twenty-two fuses were burned out. The latter are for the protection of the switch board in the office and act as lightning arresters. The accident caused a still alarm to be turned in and occasioned some trouble with the fire alarm appliance. The instruments and fuses were replaced last evening and the work completed.

The fact that twenty or more telephones are connected to the one wire that was crossed accounted for the amount of damage. Had the phones been on full metallic circuit only one instrument would have been affected and that only slightly.

What might have proven a serious accident was averted by the quick action of Jack McGill. Coming directly towards the live wire was a farm team and wagon containing several people. When they were within a few feet of the danger, McGill dexterously threw a hand line over the wire and pulled it away just as the team passed over the very spot where it lay an instant before.

PUNCHEON IN PRISON
FOR A LONG TERM

FORMER JANESVILLE MAN IS
SENTENCED.

Chicago Judge Punishes Him Under the Habitual Criminal Act, And He Is Likely to End His Days in a Cell at Joliet. The Chicago Journal Says.

Frank H. Punchon, the former Janesville man, is likely to spend the balance of his days in Joliet prison. The Chicago Journal tells the story as follows: F. H. Punchon has aged perceptibly in the past six or seven years. He was not as bright and confident in appearance, when he was called for trial before Judge Waterman today as he was in 1893, when he was convicted of larceny and sent to the Joliet penitentiary for seven years.

Punchon's face has grown thin and his hair is prematurely wrinkled. In 1893 he was convicted of swindling a dozen or more women. His scheme was to advertise for a domestic and to employ every woman who answered the advertisement. He would then go with his victim to their homes to get their trunks. Punchon would take the trunks away in an express wagon, telling his dupes to follow on a street car. He gave each of them numbers on different streets. When the victims went to these numbers they could find no trace of Punchon. In the meanwhile he took the trunks thus obtained to a room on Wabash avenue, broke them open and rifled them. When the police arrested Punchon they found two dozen trunks piled up in his room.

Punchon was released from the Joliet penitentiary last August. He at once resumed his old scheme, is said, advertising, to obtain richer prizes; that he desired a traveling companion for his wife on a European trip. Hilda Radin, of 77 Warren avenue answered the advertisement, and Punchon soon had her trunk, which contained over \$100 worth of clothing. Today Punchon denied absolutely that he had taken the young woman's trunk or that he knew anything about the transaction. While Punchon was denying his guilt a woman from Hege-which was before the grand jury seeking his indictment on another similar charge.

The case was submitted to the jury at noon, and a few moments later a verdict was returned finding him guilty under the habitual criminal act. Punchon has already spent twenty-nine years in the penitentiary, and under the present sentence will probably end his life there.

AN AGREEABLE SURPRISE

Ladies of Eastern Star Banqueted By the Men. The ladies of Janesville Chapter No. 69, Order Eastern Star held a regular meeting last evening, but a surprise was in store for them. That they did not anticipate. The gentlemen prepared an elaborate banquet and as the ladies concluded the evening's work, the doors leading to Liberty hall were thrown open and imagine their surprise upon seeing well filled banquet tables, beautifully decorated. Smith's orchestra furnished music during the progress of the banquet, as well as the dance which followed, which came to an end at the midnight hour.

The storekeepers say that the nuisance of throwing paper and other stuff upon the streets is committed by many, and is a source of great annoyance. The dust is bad enough without adding the other.

The laundress is sure of satisfactory results in her work if she uses Ivory Soap. Linens are of immaculate whiteness; no dirt or streaks anywhere. There's no room for criticism in the work when brought home. Ivory Soap is cheaper than common soaps in the end.

A WORD OF WARNING.—There are many white soaps, each represented to be "just as good as the Ivory." They ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Chicago Live Stock Report.

Chicago, April 26.—More moderate receipts of cattle and sheep were at hand than came one week ago today and firm prices were paid for some of the choice light beef steers and choice woolled lambs, but heavy cattle were again a drag at the lowest prices of the season and the bulk of the sheep and shorn lambs sold right at Tuesday's prices. The run of hogs was nearly 10,000 more than one week ago today and sales were made at prices weak to 5c lower, the bulk selling at 2 1/2c below Tuesday's prices for such, light weights showing least decline. Today's receipts are estimated at 14,000 cattle, 31,000 hogs and 13,000 sheep. Many heavy cattle were still hanging fire at a late hour, but offerings in the other branches were quite closely bought up.

Making Warlike Moves.

New York, April 27.—The Journal prints the following, dated Cape Town, April 26:

"There is renewed uneasiness over the situation in the Transvaal. President Kruger's general-in-chief, Joubert, is inspecting the frontiers and selecting places suitable for intrenchments. More rigid inspection of the military has also been ordered. Kruger, as he intimated a month ago, evidently is expecting hostilities with Great Britain."

Welcomed by Gov. Candler.

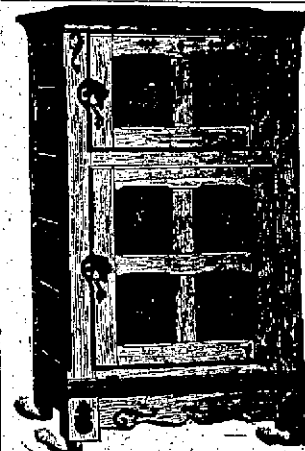

Atlanta, Ga., April 27.—The ninth international (fourteenth national) Sunday school convention met in the Grand opera house Wednesday night. Attending the convention are many of the most prominent Sunday school workers in the United States and the old world, and, while there are only 1,500 authorized delegates, the city is thronged with visitors. Gov. Allan D. Candler of Georgia welcomed the delegates to the state.

Sympathize with Quay.

Washington, April 27.—Senator Chandler of New Hampshire will be one of the senators to vote to seat Senator Quay. He will be supported in his attitude toward Mr. Quay's appointment by Senators Hoar, Spooner, Tamm on the part of the insurgents to figure prominently in the discussion of similar cases, and have always held that the appointee of the governor should be seated.

Does Coffee Agree With You?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week I found it would induce me to go back to coffee. It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow directions in making it and you will have a delicious and healthful table beverage for old and young. 15c and 25c."

1870—Revolution successful in Venezuela, and General Guzman Blanco made provisional president. For a generation Venezuela had been distracted by civil wars. General Falcon was Blanco's predecessor and had given the country a few years of tranquility. Blanco's administration was republican in form, yet dictatorial in nature. The people enjoyed greater liberty and prosperity than ever before. He ruled as president until 1884, and after that date was the controlling spirit behind every executive until the revolution of 1888.

TO SECURE PURE MILK

As the subject of an ordinance providing for the examination of cows owned by milkmen has been discussed in Janesville, the following from The Milwaukee Sentinel will be of interest.
"St. Paul has recently adopted a milk ordinance that provides for the inspection of all the cows from which milk is taken taken to supply the city. To cover the expense of this inspection a fee of 50 cents per cow is to be charged, which appears to be the only clause objectionable to the milk dealers. This fee is expected to bring in about \$5,000, approximately what it will cost to have the inspection done. The advantage that the inspection of cows will confer on milk consumers is to insure against having milk taken from uncleanly animals. It is thought that there are always some cows suffering from tuberculosis and that their milk is the cause of disease and mortality among infants. If by this inspection these cows are separated from the healthy ones it will be a gain not only to the city, but to the milkmen, too, whose other cows will then no longer be subject to contagion from the diseased animals. Inasmuch as no milk is to be allowed to be sold excepting that of cows inspected by the city's health officials, there is a guarantee that the milk dealers will submit to the ordinance immediately. Outside of this inspection the ordinance provides against adulterated and impure milk very much as similar measures in other cities do."

AN ENERGETIC OFFICIAL.

Street Commissioner Nicholas Frederick is taking hold of his new duties with commendable zeal and is working a change for the better in his department. Notices to build sidewalks have all been served within a very few hours after they have been handed him, and all other work ordered done has been attended to promptly. Much depends on the energy of the commissioner under the present system of street work, and Mr. Frederick seems to be just the man for the place.

The Milwaukee newspapers do Assemblyman Wheeler an injustice in their references to the anti-pool selling law. The bill that Assemblyman Wheeler introduced represented the interests of the trotting horse breeders of Wisconsin, not the race track sharks who formerly operated gambling "joints" at and near Milwaukee. The trotting horse breeders have the same rights as other business men, and Assemblyman Wheeler would have neglected his duty had he refused to introduce their bill.

The Beloit Free Press says: "The Milwaukee Journal mentions a whole lot of democrats from whom a proper candidate can be chosen for governor next year, but the Waterloo Democrat, Bryniskine, objects to the whole list because they were all 'renegades' in 1896. Why can't the Journal and Democrat compromise on ex-Congressman Clinton Babbitt?"

The fact that the True marriage license bill was rebuffed by the legislature on the same day that the anti-spring shooting bill was passed might tend to justify the belief that some people were more interested in alleged protection for the ducks than they were in real protection for the people.

We are willing to admit, without debate, the truth of The Milwaukee Journal's statement that there are "rabbits with horns" in the Cream City. But we want to ask you, dear Journal, what kind of horns the rabbits have—the Milwaukee "horns" of commerce, or the ordinary horns of nature?

As Captain Coghlan's friends deny the statement of the German papers that the Manila hero was drunk when he made his famous speech, it behoves Uncle Sam to "beware of the unloaded officer" as well as "the unloaded gun."

CHARGED WITH USING ABUSIVE LANGUAGE

DELL GOWER PAYS FINE OF TWO DOLLARS AND COSTS.

Complaining Witness Was Mrs. Carolyn Mayhew—Unfriendly Feeling Dates Back a Year—Gower Threatens Revenge in Court—Chas. Hannon Get 75 Days in County Bastile.

That a woman, or better still, two women and a boy can give a beautiful dark green tint to a man's eyes, was proven in the municipal court this morning when Dell Gower appeared to answer to the charge of using abusive language and the complaining witness was Carolyn Mayhew. Both parties reside on Pearl street, in the First ward, and the unfriendly feeling, according to the story told Judge Fifield by the young man, dates back a year or more. It seems that Mr. Gower, the defendant, was on his way to work yesterday morning and in passing the warehouse of Green Bros., stopped to talk with some girl friends who are employed there. Young Gower thought he overheard Mrs. Mayhew make some remarks derogatory to his friends and called her a vile name. In less time than it takes to tell it, Mrs. Mayhew, her sister, Mrs. Malvin and Fred Yungst, a brother, had Gower flat on his back and were playing a tattoo on his eyes. Not satisfied with this, Mrs. Mayhew swore out a warrant as above and Judge Fifield after giving some excellent advice to all concerned, fined Gower \$2 and costs or 45 days which was at once paid.

The end is not yet, however, for Gower threatens to have his alleged assailants arrested for assault and battery. Charles Hannon, who has been before the court many times before on the charge of drunkenness, pleaded guilty to the same charge this morning and was sentenced by Judge Fifield to seventy-five days in the county jail at hard labor.

MAN KEEPING DRUNK TO AVOID \$200,000

PECULIAR CASE OF JOHN LAMAR M'RAVIV.

If He Becomes Sober The Money Will Be His, But Creditors Will Seize It - If He Stays Intoxicated He Will Have the Income Forever.

A man who had to keep drunk all the while in order to prevent \$200,000 from falling to him under the provision of a will, passed some hours in Janesville yesterday.

And it is not strange that he did not want the money, either, as he owed more than that amount and was assured of the income from it as long as he did not become sober.

Talk about truth being stranger than fiction! The story of John Lamar McRaciv's life out does anything that H. Rider Haggard ever gave the world.

As the train from Milwaukee on the St. Paul, rolled into Janesville and came to a stop, there alighted a tall and beautiful woman of perhaps twenty summers. Closely following her was a young man, whom she addressed as "Jack."

His inebriated condition was slightly perceptible, yet his demeanor was indicative of that of a gentleman. The woman's features were slightly flushed, and bore the fixed resolute expression which the sculptor would give Minerva. Her dark eyes flashed the glance of earnest defiance, so often found where "oppression" and trouble bring a noble heart and her lips were compressed as if by some high purpose.

Manner Was Polished

She wore a tightly fitting traveling gown and her inexpressible refinement of manner told truly of the higher rank in life.

"Sir," she said, as a hackman stepped forward on his wonted mission, "we desire to take an hour's carriage drive, my husband and I, then to breakfast at a cafe and return in time for the train to Chicago."

The pair were quickly assisted into the vehicle and the horses were soon whirling the strange couple down Milwaukee street and out upon the country road beyond the fair grounds.

After the ride there was entered upon the register of an East Side hotel, "John Lamar McRaciv and wife." The latter was seated at a table and inquiries revealed the presence of the former in the buffet.

There he stood before the mahogany, in characteristic attitude, raising his glass to a toast. All were his adopted friends.

Tells His Story

"Landlord and gentlemen," he began, "my condition is not my choice now. I was once blessed with a dear, kind mother and an indulgent father, but my debaucheries hastened them both to their last resting place."

His eyes grew dim with unshed tears and his voice became unsteady, but he rapidly related how when a few years before he was a young man of the "sporty" set and deaf to the entreaties of his father for nobler things. His position in the circle must be kept up and naturally ran overwhelmingly into debt. Death soon robbed him of his mother. Shortly afterward he was to the bedside of his dying father. Not until the only survivor of the family was summoned into the presence of the law, where the last will and testament was to be read did he come to thoroughly realize his position in the eyes of the world.

The Will's Provisions

"To my only son, John Lamar, do I bequeath the sum of \$200,000, to be placed in the hands of my executor until said John Lamar shall attain a state of absolute sobriety. Until said time shall he be simple beneficiary of and receive the income of said principle."

This portion of the will he had copied in a small memorandum book along with which he had also itemized his indebtedness. The actual cash which he had borrowed for various purposes made a total of a trifle less than \$110,000 and other items made a total of \$120,000.

The entire matter resolved itself into simply this: Should he attain a state of sobriety he would of course come into the possession of the \$200,000; but he realized that he had secured his creditors in such a way that they would immediately lay claim to and receive far more than half of it, the instant he would possess it.

Decided To Keep Drunk.

So he deliberately resolved to remain in a state of inebriety and attempt to enjoy life in that way, for by so doing he would continue to receive the income, which was \$10,000 to \$15,000 per year.

The credentials and letters which he displayed, proved that he had continued in this condition since April 14, 1897. Mrs. McRaciv claimed that on several occasions her husband's creditors had sent out agents or lawyers who had followed them repeatedly in an endeavor to force him into a sober state and thus release the principle, but they had failed. She is thoroughly resigned to the condition of affairs and contented with her lot.

The couple departed for Chicago on an afternoon train from where they intend to go on a visit to Mr. McRaciv's home in Georgia.

THE OLD TELEPHONE SYSTEM DANGEROUS.

The Rock County Telephone Company's Metallic System Absolutely Safe from Fire and Electricity.

The burning out of 25 or 30 of the Wisconsin Telephone Co's telephones yesterday demonstrates the danger of the single strand wire system used by that company. The Rock County Telephone company by their metallic double wire system, avoid all such danger. Under the same conditions the damage if any would be the burning out of a single line at the central station, and only one telephone would be out of service, and not dangerous, and no danger from fire. As long as the single wire system is used there will always be danger. ELECTRICIAN.

SECOND COUSIN OF CAPTAIN DREYFUS

JULIUS DREYFUS IN THE CITY LAST EVENING.

Characterizes Trial Before Court of Cassation as Being a Farce—Looks Forward to the Proclaiming of His Relative's Innocence—Kind Words For Zola.

The city of Janesville was honored last night by the visit of no less a personage than Julius Dreyfus, of Chicago, who claims to be a second cousin to the now world famous ex-captain of that name, formerly in the French army.

All will recall the story of the arraignment and trial of the then popular Captain Dreyfus, on the charge of sending information in regard to the movement of the French troops on the frontier, to France's great enemy, Germany. The subsequent finding of the Court of Cassation on weak evidence that he was guilty and the sentence that he be stripped of all insignia of his rank in public, dishonorably discharged from the army and exiled to Devil's Isle.

To the world at large, it seemed that this trial was more of a persecution than a prosecution, a means by which fellow officers who were his rivals hoped to rid themselves of his influence. For these reasons, the proclaiming of his innocence has been daily looked for from the government. As might be expected, none cling more tenaciously to that ray of hope than Julius Dreyfus and none are more bitter against France and its officers. In regard to Captain Guignot's testimony before the Court of Cassation, which is reviewing the Dreyfus matter, the cousin characterizes as a pack of lies. He also claims that the reasons, Captain Guignot gave for believing Dreyfus guilty, which are as follows: First, Dreyfus' confession; second, the technical contents of the bordereau, and third, the secret dossier; while admitting there was nothing in the letter, show the character of the witness. As evidence that there is a conspiracy, he points to the suicides of the two French officers who assisted in convicting Dreyfus.

For Emile Zola, the great French novelist, who brought about a review of the case at the peril of his own liberty, Julius Dreyfus has the kindest words.

ASLEEP IN JESUS.

Arthur Edwards.

The remains of Arthur Edwards, who died at the State School for the Blind, yesterday, were taken to his home in Ogdont this afternoon, after very impressive services, Rev. E. H. Pence, officiating. The remains were accompanied by Superintendent and Mrs. H. F. Bliss and the bereaved sister, Miss Harriet Edwards, of Chicago, who arrived in the city last evening. The pall bearers were: Fred Lamire, Chester Parish, Samuel Egtvedt, Terrence Knight, Jerry Scribner and Robert Barnes. Song service was rendered by the whole school. His classmates accompanied the remains as far as the depot. The funeral party left at 12:40 this afternoon.

The services were held in the big assembly room. The floral offerings were many and beautiful, a large share being gifts of respect by the young associates at the school. The pall bearers, members of orchestra and classmates, escorted the remains to the depot. Just before their departure from the grounds, the scholars of the institute formed a double line at the gate as a mark of respect. The casket was open from 10 to 11 o'clock this morning and the blind schoolmates as well as those partially deprived of sight, filed by in solemn silence. The death of young Mr. Edwards is the first that has occurred at the school for the blind in six years.

M. J. De Lent.

Charles H. Patterson received a message yesterday, announcing the death of M. J. DeLent, which occurred at his home in Ravenwood yesterday afternoon of typhoid fever, after an illness of only a few days' duration. Mr. DeLent formerly resided in this city, and was married to Miss Flora Bemis, daughter of Mr. and Mrs. George Bemis, also former residents. Mr. DeLent was a traveling salesman, and had many friends in this city who will be pained to hear the sad news. He leaves to mourn his departure a widow and one child, a daughter, Miss Flora DeLent.

Harry Wallis.

Illness contracted in a Florida camp caused the death of Harry Wallis, a former Janesville boy, in Chicago last night. He was the son of W. Wallis and the nephew of Thomas Wallis, of this city.

Death was caused by quick consumption, but the seeds of disease were sown in the south where Mr. Wallis went with his regiment, the Third Illinois. He returned from Chattanooga in October on sick leave and seemed unable to regain his health.

The remains will be brought to Janesville tomorrow afternoon and will be interred in Oak Hill.

Funeral of M. J. De Lent.

A dispatch from J. G. De Lent to O. H. Patterson this afternoon announces that the remains of M. J. DeLent will reach Janesville Friday noon. It is supposed that services will be held in Chicago and that the remains will be taken directly from the depot to Oak Hill.

Will S. Davis writes from Colorado Springs, Colo., that he is doing all the business he can handle. He took, five horses and a full equipment of new carriages and buggies from Janesville shops; and now has twenty-eight head of horses in his barn with fifteen boarders.

Three Trusts May Be Merged.

Pittsburg, Pa., April 27.—The Commercial Gazette publishes a story to the effect that negotiations are on for merging of the National Steel company, capitalized at \$59,000,000; the American Tin Plate company, \$50,000,000, and the American Steel Hoop company, \$33,000,000, into a single stock company.

Expect Verdict Tomorrow.

Washington, April 27.—It is expected that the verdict of the beef court of inquiry will be delivered to the secretary of war Friday. It is generally admitted that the charges of Gen. Miles that beef was chemically treated have not been sustained. The court will probably not consider further testimony.

Alger Is Coming West.

Washington, April 27.—Secretary Alger left Washington to-day for a week's visit to Michigan. He will attend the meeting of the Loyal legion at Detroit, and will address the legislature at Lansing.

Bargain seekers should not fail to visit the dining rooms of The Mrs. Clark Co., 151 153 Wabash Ave., Chicago, which is the very center of the shopping district. This restaurant has the finest cuisine and service in the city and the prices are moderate.

The restaurant on the 7th floor of the Association building in La Salle street is also run by this company and is equally inviting and attractive.

CANCER IS DEADLY!

Results Fatally in Nine Cases Out of Ten—A Cure Found at Last.

This fearful disease often first appears as a mere scratch, a pimple, or lump in the breast, too small to attract any notice, until, in many cases, the deadly disease is fully developed.

Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer—known as the Cancer—may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen:

"Cancer is hereditary in our family, my father, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly, such a way as to cause great alarm. The disease seemed beyond the skill of the doctors, for their treatment did no good whatever, the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family, for I know how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and having had no symptoms of the dreadful affliction, though many years have elapsed. S. S. S. is the only cure for Cancer.—Mrs. S. M. Idol, Winston, N. C.

Our book on Cancer, containing other testimonials and valuable information, will be sent free to any address by the Swift Specific Company, Atlanta, Georgia.
